On Friday, September 27, 2019 the boat carrying desperate people fleeing the persecution in Turkey sank. Seven out of 19 people in the boat passed away.

They held funerals and buried 2 of the deceased on the slope of Chios with the help of Greek citizens.

While the Greek media published the news as "The angels escaping from Erdogan, lost their lives in the Aegean Sea" for the unfortunate event, Turkish media said 'F.....s drowned'.
